DESIGN & SPECIFICATION

AT ALLSCAPE WE HAVE THE EXPERTISE AND INFRASTRUCTURE to help you achieve your vision, from design to supply we will ensure that you will be introduced to quality products. This, combined with our logistical expertise, ensures that deliveries are correct and on schedule.

IT'S ABOUT PEOPLE

PROFESSIONAL, WELL TRAINED PEOPLE ARE KEY TO THE SUCCESS of any business. All of our staff receive extensive and ongoing in-house technical and product training combined with regular manufacturer training to ensure that they are conversant with the latest product developments.

We want to ensure that any decisions that our customers make will only be informed ones. Our technical sales team work closely with our customers and manufacturers to ensure an efficient service, assisting with design, technical and installation issues.

At Allscape Stone, our philosophy is to provide our customers with the broadest range of stone products from a single source available in the Irish market today. This combined with the commitment to provide a first class quality service and technical support, ensures that projects are completed efficiently.

Photographs within this brochure are intended as a guide to the general character, substance and colour of the materials. As these are natural products, there will always be some variation.

STONE

is the NATURAL choice

ALL WHO CREATE LANDSCAPE HAVE A SPECIAL RESPONSIBILITY, for they form the space in which we live.

Our aim is to facilitate the creation of these great spaces. For over 30 years, Allscape has developed and extended its range of natural stone products that has become the basis of good design with long-lasting results. We keep an extensive range of stock in our depot, but we will arrange the manufacture of almost anything - as long as it is natural.

Stone cannot be made - it exists, and is one of the oldest building materials known to man. Its variation in colour, pattern and texture provide unique visual impact which makes it the material of choice for professional designers, landscapers, architects, stone masons and builders alike. One designs in accordance with the qualities of a particular material. At Allscape, we have the responsibility of giving the right advice to assist all to achieve a good long term result. Our desire and need is for stone to be used to its full potential so that good examples abound can be followed.

Looking at past practice, there is much excellent work that has survived in top condition for a hundred years or more.

Delightfully for us all, these materials often look better the older they are and this is reflected in the existence of a lively market in reclaimed flags, setts and kerbs. However, the same aim at best practice applies just as much to the choice of aggregate for pebbledash, footpaths, driveways, waterfeatures etc.

Natural Stone paving is beautiful but to make a good choice much needs to be considered - we have to know if it is for private or public use, inside or out, traffic or pedestrians. So, when considering the choice of material for your next project, think natural and speak to a member of our experienced staff for informed advice on the best solution.

NATURAL STONE PAVING

Stone paving flags are available in a wide variety of materials, each of which has its own unique colour and texture. Natural surfaced (Riven) paving materials in particular are best supplied as gauged widths x random lengths. This makes the most efficient and economic use of the raw material. Careful consideration of the type of stone used will make sure that, once laid, the paving will last and look good for many years.

Silver Grey Granite

400mm x 400mm, 400mm x 600mm,
600mm x 600mm, 600mm x 800mm
...all at 25mm thick

Yellow Granite

400mm x 400mm, 400mm x 600mm,
600mm x 600mm, 600mm x 800mm
...all at 25mm thick

Beige Sandstone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

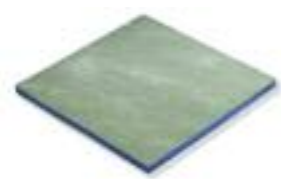

Green Sandstone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

Pink Sandstone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

Grey Sandstone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

Blue Limestone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

Black Limestone

300mm x 300mm, 300mm x 600mm,
600mm x 600mm, 600mm x 900mm
...all at approximately 30mm thick

NATURAL SETTS & STONE CIRCLES

Green Sandstone

Standard stock sizes: 100x200x40/70mm
& 100x100x40/70mm

Beige Sandstone

Standard stock sizes: 100x200x40/70mm
& 100x100x40/70mm

Pink Sandstone

Standard stock sizes: 100x200x40/70mm
& 100x100x40/70mm

Silver Grey

200x200x100mm 100x100x200mm,
100x100x100mm 100x100x50mm

Yellow

200x200x100mm 100x100x200mm,
100x100x100mm 100x100x50mm

Indian Circles

1.8m, 2.6m and 3.6m diameter circles are available in the beige, green and pink Indian sandstones. All circles can be supplied with or without square off kits

Green Circle 1.8m diameter

Pink Circle 2.6m diameter

Beige Circle 3.6m diameter

BOULDERS & COBBLES

Our natural Boulders are principally Irish but are sourced from all over Ireland the UK and Europe. With sizes ranging from a few kilos up to several tonnes, natural boulders make such a difference to beach, stream, lake and pool schemes. It is worth remembering that a few larger boulders may have much more effect than many smaller ones. Boulders may be used as signs with judicious selection and lettering - sometimes on a specially sawn face. Boulders are a great addition to any landscape or garden. With a large selection of Cobbles and Pebbles held in stock, we will normally be able to supply just the right materials for the effect and visual look that you desire. And if we don't have just the thing, we try our best to find exactly what you are looking for. Ideally suited for water features and general design use. Decorative pebbles are an attractive alternative for mulching as well as for use in small or large water features. Some of these beautiful stones are available polished, some are flat, some smooth, some more irregular and natural in appearance and they come in a variety of sizes to suit all applications.

DECORATIVE AGGREGATES & PEBBLES

The aggregates and their sizes shown here are those most commonly stocked at our depot. Many more sizes are available as are other materials. We deliver both from our depot and directly from the quarry/source of production (whichever route is most effective) in bulk tipping loads, bulk bags or poly bags, all in any quantity as needed. In our sample library, there are hundreds of other possibilities. We can match most materials, new or old, just send us a sample.

Rainbow

An exotic golden or brownish orange banded, sandstone cobble. A vivid eye-catcher.

Size: 300-200mm

Silver Grey Granite

A remarkably smooth and well-rounded, speckled silver grey granite cobble of top quality.

Size: 300-200mm

Angel Stone

A compact schist with markedly contrasting yet intimately interwoven bands of dark greenish grey chlorite and white calcium carbonate. Both beautiful and striking.

Size: 300-200mm

White Marble

This very smooth, pearly white cobble is the big brother to our White Marble Selected Cobbles.

Size: 300-200mm

Scottish Beach

The smoothest and most round natural cobble in the U.K and a product of international quality. Formed by the tidal reworking of a glacial river deposit, now a 'raised beach'. When dry these are predominantly light greys with hints of pink and other hues; when wet these multi-pastel tints, often speckled or banded, are accentuated.

Size: 50-30, 30-20, 20-14, 14-8 and 8-4mm

Golden Flint Gravel

A particularly golden brown flint gravel, which we stock because of its rich warm tones.

Sizes: 20 & 10mm

Light Gold Gravel

This beautiful golden brown Irish stone is the perfect choice for driveway surface, foot paths or around flower beds.

Sizes available: 40mm, 20mm, 14mm, 10mm & 6mm footpath binding grit.

Slate Shale - Plum

A plum slate chipping, flat and angular.

Size 40 and 20mm

Slate Shale - Green

A green slate chipping, flat and angular.

Size 40 and 20mm

Polished Pebbles - Black

Black polished pebbles.

Size: 20-60mm

Polished Pebbles - Red

Red polished pebbles.

Size: 20-60mm

Polished Pebbles - White

White polished pebbles.

Size: 20-60mm
